

My Cubiko

Your data, Your insights, Your patient's optimal care.

My Cubiko is an individual summary page for the data-empowered Practitioner, providing you insights and analysis into your billings, patients, and diary.

Timely insights

Get a summary of the quick actionable insights broken down to monitor on a daily, weekly and monthly basis.

Improved patient care

Drill down to gain deeper insights to help manage patient outcomes and reduce medico-legal risks.

Verified patient item eligibility

See a list of upcoming appointments with details on what MBS items patients may be eligible for and quickly verify patient Medicare eligibility against CDM and mental health treatment plan items.

My CPD Outcomes

Effortlessly measure outcomes and improve patient care with a library of CPD activities pre-approved by the RACGP and targeted insights from Cubiko.

Cubiko Data Analysis of patients with diabetes who have not been vaccinated against influenza in the last 15 months

Date range	30 Sep 2024 → 20 Nov 2024
Activity ID	953280
Potential CPD hours	5

1 out of 5 steps completed.
